

CAT. No. ST-08-2010

ISOREX UMO

Universal Mold Oil

ISOREX UMO is a special blend of mineral oils and chemical additives and designed for use for quick easy stripping of concrete formworks. It is non-staining and contains rust inhibitor to protect metal form from corrosion and preservative to increase the life of wood forms. **ISOREX UMO** promotes a water repellent interface between concrete and formwork resulting in a smooth, flat, unstained surface. Its air release property minimizes formation of air voids and blemishes.

ADVANTAGES

- Minimize voids, blemishes and defects on concrete surface.
- Quick, easy and clean release of concrete formworks.
- Non-staining; will not transfer from forms.
- With built-in rust inhibitor and wood preservative extending life of forms.

DIRECTION FOR USE

Hardened concrete adhering to old forms should be removed. **ISOREX UMO** is directly applied to the form works by brush or spray.

Depending on method of application and composition of form, **ISOREX UMO** will cover from 20 to 60 square meters per liter. Avoid excessive application and puddling.

PACKING

ISOREX UMO is packed in 20 liter pail and 210-liter drum.

CAUTION

ISOREX UMO contains solvent. Keep away container from naked flames.

SHELF LIFE

Twenty four months minimum in original container stored in warehouse condition below 35^o Celsius ambient temperature.

HEALTH / SAFETY

May cause skin irritation. Always wear eye protection and rubber gloves when handling. Accidental splashes to the eyes should be flushed with plenty of water. If irritation persist, consult a physician, splashes to the skin should be washed with water and soap. For more information, refer to MSDS.
